

## 2025 GSAE Foundation Annual Report

The GSAE Foundation, in partnership with GSAE, is dedicated to enhancing the effectiveness of the association community and maximizing the impact of associations on society. There are three essential components of the Foundation's work:

- Supporting the internship grant program
- Supporting the Clifford M. Clarke Award
- Supporting the Abit Massey Lecture Series

The Foundation provides grants to assist Georgia associations hiring interns. The associations receive help that they otherwise would not receive, and the students gain a valuable glimpse into a profession they may not have considered previously. Since 2002, the Foundation has granted more than \$77,000 to support the community. Thank you to our 2025 Foundation Beer Pour sponsors and supporters: **Visit Athens GA, Visit Charlotte, and Visit Savannah**.

The Fall 2025 grants were awarded to **Georgia Association of Broadcasters** and **Georgia Dental Association**.

An endowment funds the Clifford M. Clarke Award. GSAE's highest award is presented to honor a member for an outstanding career of leadership and service to associations in Georgia. It is named for the late Cliff Clarke, president emeritus of the Arthritis Foundation, and the first Georgian to serve as chief elected officer of ASAE. The 2025 recipient of the Clifford M. Clarke Award is **Niel Dawson, MS Ed.**

The Foundation has gratefully accepted funds from **the Massey family**, and **Gary Black** to support the honorarium and speaker travel costs associated with the annual Abit Massey Lecture Series. We thank the Massey family for their generous support of GSAE. The 2025 Abit Massey Guest Lecturer was **Gary Black**.
